- 2. Have your Board of Trustees or governing body opt in as soon as possible to get to the front of the line and join this class action law suit.**
- 3. Make sure you register your district's affirmative response on the website SchoolsAgainstVaping.org.**
- 4. Provide official district contact information so that SAV can keep you informed with legal updates from the Napoli Shkolnik PLLC Attorney Team.**
- 5. If you like, as a Friend of Children and Education, your school district, organization, network or you as an individual could send a letter of support for use in our campaign to fight the vaping epidemic that threatens the health of American students.**
